1. Golfwith™ SMART CADDIE

1) What is a Golfwith™ SMART CADDIE?

○ It is a golf rangefinder App available exclusively for the Samsung Gear S3 and Galaxy Watch Series (Active1, 2 & Watch1, 3). It provides yardage information of over 40,000 golf courses worldwide.

- Distance Information: Through GPS tracking, it provides the distance from your location to the front, middle, and the back of the green. Furthermore, the slope feature provides better distance information. (Supported in some of the golf courses exclusively in Korea)

- Course View / Green Map: It provides hole view based on the high-resolution (actual) image and green undulation map for over 400 golf courses in Korea.

- Scorekeeping: Once you are finished with a hole, an automatic screen will pop up for you to input your scores. It can be accessed and managed by signing into Golfwith™ GOLF SCORECARD App or by going to “My Round” page, on our website(golfwith.golfzon.com).

- If SMART CADDIE does not have the golf course you are looking for, you can request a golf course to be updated by contacting us via website.
2) How to Install Golfwith™ SMART CADDIE
   ○ Sync your phone (supports both iOS and Android) with your watch device via Bluetooth.
   ○ On your smartphone, go into the ‘Galaxy Store’ or ‘Galaxy Watch’ App, search and install the ‘Galaxy Apps’.
   ※ If you have the Golf Edition, the SMART CADDIE app is already pre-loaded onto the watch. All you need to do is to sync your phone with the watch and update SMART CADDIE App via SAMSUNG Galaxy Apps.

![Image showing the process of installing the Golfwith™ SMART CADDIE App](image)

3) Activating GPS function
   ○ Because SMART CADDIE works based on GPS tracking, it is important that the watch’s Bluetooth and GPS location is turned on when using the app.
   ○ To operate the GPS function of the watch, we recommend you to use it first in outdoors for about 5 to 10 minutes.
   ○ Also, you can make sure the GPS function works by going into ‘Play → Nearby’ menu.
2. Log-In & Golfwith™ Membership Registration

SMART CADDIE is accessible after signing up and logging in. You can sign up with your email address, Google account, or Facebook account. All of Golfwith services (Golfwith™ : GOLF GPS, Golfwith™ : SCORECARD, and Golfwith™ : SMART CADDIE) can be accessed through the same email address you sign up with.

1) SMART CADDIE Log-In
   ○ After syncing your smartphone with watch, run the Golfwith™ SMART CADDIE app.
   ○ The log-in page will appear on the watch, then tap the lower part of the page (green icon) so that you can log in on your smartphone.
   ○ The log-in page will appear on your smartphone, where you can create and log-in with your Golfwith account.
   ○ Within the next 15 minutes after the logging in on your smartphone, the ‘Confirm’ button will appear on the SMART
2) Golfwith™ Membership Registration
   ○ All of Golfwith™ apps can be accessed through the same email address you sign up with. You can sign up with your email address, Google account, or Facebook account.
     - Golfzon integrated member's account is not supported and need to register for a new Golfwith™ membership.
   ○ When the log-in page appears on your smartphone, click on ‘SIGN-UP’ and put in your email address and make a password.
   ○ The log-in page also has options, ‘Log in with Facebook Account’ and ‘Log in with Google Account,’ so that you can choose to sign up with existing SNS accounts.

3) SMART CADDIE Log-Out
   ○ To manage your account while using the SMART CADDIE, go to the main screen, click on the Menu button on the right side, and then go to the account, click on the ‘Log Out’ button
   ○ To log-in again with the account after logging out, restart the app and simply go through the log-in process again.

To search and download the golf courses, select ‘PLAY’ on the main screen of the SMART CADDIE app and there will be 3 options, Favorite / Nearby / Search.

1) Golf Course Search
   ○ Favorite
     - ‘Favorite’ menu provides the list of the courses you have downloaded before.
     - The downloaded courses can be accessed without using data (network).
   ○ Nearby
     - ‘Nearby’ menu shows all the golf courses near your location (10km perimeter).
     - If you download the golf course when you are at the location, we recommend that you find golf course outdoors for a better GPS reception.
   ○ Search
     - ‘Search’ menu allows you to choose the Country, City, and the golf course you are looking for so that you can download it. (It is faster to search the country, city, and the golf course by rotating the bezel of the watch).
2) Golf Course Download

- Select the golf course name to download the map data. Make sure your watch is connected to the internet when downloading.
  - For Bluetooth watch models, make sure you are connected to your smartphone and your smartphone is connected to the internet. Or make sure your watch is connected to the Wifi.
  - For LTE watch models, you can download the course via cellular data.
4. User Guide ②: Distance Information & Settings

Once you have downloaded the golf course and have the GPS location services on, you are ready to start your round. After selecting a golf course you would like to play and go to the Tee Box, the app will automatically identify the hole.

1) Distance Information
   - Provides the distance from your location to the front, middle, and back of the green.
   - If there are left and right holes on the green, you can select which one you would like to use by selecting [L] and [R] button on the screen.
   - On the distance information screen (only applies to the golf courses that support the slope feature); if the slope feature is ‘ON’, it provides distance that applies the elevations.
   - Once you are near the green, it will notify you by showing, ‘GREEN SIDE.’
   - Once you have finished the hole and have left the green;
     - If the Scorecard feature is ‘ON’: it will automatically provide a screen where you can input your scores.
     - If the Scorecard feature is ‘OFF’: it will automatically move onto the next hole’s distance information.
   - You can change the holes manually by rotating the bezel of the watch.
2) SHOT Tracking

○ Can automatically keep your current location by pressing & holding the ‘SHOT’ button for 2 seconds on the distance information screen.

○ After moving to the next shot position, you can identify the distance from the previous shot position to the current by pressing the ‘SHOT’ button again.

○ The shot tracking information kept can be checked on Golfwith™ GOLF GPS app or website(golfwith.golfzon.com).

3) Settings

○ The Settings page shows the GPS reception, battery life, distance units, slope On/Off, Scorecard and map type selection.

SMART CADDIE provides 2 distance units: Yards and Meters.

○ Scorecard feature lets you choose ‘On’ to input your scores after each hole, or “Off” to not using the feature.

(If you input score manually before hole-out as setting ‘Score On’, the score input does not pop up.)

○ The Slope feature can be turned On and Off.

When the Slope feature is turned On: It provides the distance that applies elevation.

When the Slope feature is turned Off: It provides the straight-line distance to the green along with elevation information on the left side.
○ The Green undulation can be turned ON and OFF.
  *Green undulation displays the gradation of the slope of the green through different colors: blue being the lowest point of incline and red being the highest.
  *Green undulation is only available at select golf courses even though you set with 'Green undulation ON'.
○ You can select the map type between satellite and graphic.
  - Satellite Map: Actual high-resolution image
  - Graphic Map: The drawn image
5. User Guide ③ : Course View & Green Map

1) Course View

- To see the complete image and the distance information of the hole you are on, click on the [MAP] icon on the lower right corner of the SMART CADDIE Distance Information screen.
- On the Course View, current location of the user is provided. With Dual Arc feature, it provides the distance from the green and also from the user's position.
- The distance around the green, course IP, and SHOT history are also provided.
- The Course View can be zoomed in and out by the bezel of the watch.
2) Green Map

- There are approximately 400 golf courses, exclusively, in Korea as well as some of US golf courses that have the green undulation map.
- When there is a rainbow flag on the left side of the screen, it means that the course has the green map.
- When there is a green flag on the left side of the screen, it shows that the course does NOT have the green map.
- The undulation map provides colors to show the depths and the heights of the green. The red color shows that the hill is high and the blue shows that the hill is low.
- If the course has the green undulation map, you can easily find out the information by tapping the upper toggle icon (rainbow flag) of the screen. Pin location adjustment is also available by tapping/moving a rainbow flag icon of the green view screen.
6. User Guide ④ : Scorekeeping on Scorecard

1) Input scores on Scorecard
   ○ If the Scorecard feature is turned on, score input screen should automatically pop up after each hole.
   ○ Input your scores by the STROKE and PUTT number. The default score is set to PAR and 2PUTT. (The score of PUTT goes only up to one number less than the score of STROKE).
   ○ Rotate the bezel of the watch to input the score of the STROKE, click the OK button to input the score of the PUTT, then click on the OK button to move onto the next hole.
   ○ To modify the scores during the round, click the button at the bottom of the distance screen which will directly moves to the page where you can modify your scores.

2) Scorekeeping
   ○ Scores can be accessed and managed by signing into Golfwith GOLF SCORECARD app or by signing into website (golfwith.golfzon.com).
   ○ By logging in with your Golfwith account on Golfwith : Scorecard app, you can access your scores.
   ○ By logging in with your Golfwith account on the website, the scorecard is accessible by going to 'My Round' menu and selecting the round on the list.

1) Finishing Up a Round
   ○ Once a round has been completed, whole scores of the round will appear.
   ○ If the app had some error and shut down unexpectedly, you can go back to the place it stopped you to continue your game.

2) Contact Us
   ○ For any inquiries about the SMART CADDIE, click on the right side of the main screen and click ‘Contact Us.’
   ○ User GPS log is transmitted for analyzing the error. Once you have confirmed sending in your log data, you can input further information about your inquiry via smartphone web browser.
   ○ Moreover, send in the information of the model and software version of your smartphone and gear to analyze problem precisely.
3) Tutorial

○ Provides all the features of the SMART CADDIE (how to download golf courses, check the course view and green map and input scores, etc.).

○ Go to the main screen of the 'SMART CADDIE → Menu → Tutorial' for the service tutorial and practice using the SMART CADDIE.
8. User Guide ⑥ : Convenience Features

1) Time confirmation feature during the round
   ○ Can check the current time by tapping the middle of the screen.

2) Four themes (BASIC, PINK, MONO, NEON GREEN)
   ○ Customers have a choice of four themes (BASIC, PINK, MONO, NEON GREEN) what you prefer to use.
   ○ The MONO theme provides better visibility with a large number of the distance information. (Does NOT support shot tracking feature)
   ○ The NEON GREEN theme provides you to check the current time during the round without tapping the middle side of the screen.
3) Break UI/UX after the front nine
   ○ You can check the rounding time and score of the front nine before you play the back nine via the screen.
